# CHRISTUS Health Plan Texas

## 2026 Formulary

Revised: September 01, 2025

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION  
ABOUT THE DRUGS WE COVER IN THIS PLAN**

This formulary was updated on 9/1/2025. For more recent information or other questions, please contact CHRISTUS Health Plan Member Services at 1-844-282-3025 (TTY users should call 711), 8 a.m. – 5 p.m. (local time), Monday - Friday, or visit [www.christushealthplan.org](http://www.christushealthplan.org).

**Note to existing members:** This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this “Drug List” (formulary) refers to “we”, “us”, or “our”, it means CHRISTUS Health Plan.

This document includes a “Drug List” (formulary) for our plan which is current as of 9/1/2025. For an updated “Drug List” (formulary), please contact us. Our contact information, along with the date we last updated the “Drug List” (formulary), appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2026, and from time to time during the year.

### What is the CHRISTUS Health Plan Formulary?

In this document, we use the terms “Drug List” and formulary to mean the same thing. A formulary is a list of covered drugs selected by CHRISTUS Health Plan in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. CHRISTUS Health Plan will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a CHRISTUS Health Plan network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

For a complete listing of all prescription drugs covered by CHRISTUS Health Plan, please visit our website or call us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

## Can the formulary change?

Most changes in drug coverage happen on January 1, but CHRISTUS Health Plan may add or remove drugs on the formulary during the year, move them to different cost-sharing tiers, or add new restrictions. Updates to the formulary are posted monthly to our website here:

<https://www.christushealthplan.org/member-resources/coverage/individual-family-plans/medications-covered>.

**Changes that can affect you this year:** In the below cases, you will be affected by coverage changes during the year:

- **Immediate substitutions of certain new versions of brand name drugs and original biological products.** We may immediately remove a drug from our formulary if we are replacing it with a certain new version of that drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. When we add a new version of a drug to our formulary, we may decide to keep the brand name drug or original biological product on our formulary, but immediately move it to a different cost-sharing tier or add new restrictions.

We can make these immediate changes only if we are adding a new generic version of a brand name drug, or adding certain new biosimilar versions of an original biological product, that was already on the formulary (for example, adding an interchangeable biosimilar that can be substituted for an original biological product by a pharmacy without a new prescription).

If you are currently taking the brand name drug or original biological product, we may not tell you in advance before we make an immediate change, but we will later provide you with information about the specific change(s) we have made.

If we make such a change, you or your prescriber can ask us to make an exception and continue to cover for you the drug that is being changed. For more information, see the section below titled “How do I request an exception to the CHRISTUS Health Plan’s Formulary?”

Some of these drug types may be new to you. For more information, see the section below titled “What are original biological products and how are they related to biosimilars?”

- **Drugs removed from the market.** If a drug is withdrawn from sale by the manufacturer or the Food and Drug Administration (FDA) determines to be withdrawn for safety or effectiveness reasons, we may immediately remove the drug from our formulary and later provide notice to members who take the drug.
- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may remove a brand name drug from the formulary when adding a generic equivalent or remove an original biological product when adding a biosimilar. We may also apply new restrictions to the brand name drug or original biological product, or move it to a different cost-sharing tier, or both. We may make changes based on new clinical guidelines. If we make these other changes, you or your prescriber can ask us to make an exception for you and

## 2026 CHRISTUS Health Plan Formulary

continue to cover the drug you have been taking. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the CHRISTUS Health Plan’s Formulary?”

**Changes that will not affect you if you are currently taking the drug.** Generally, if you are taking a drug on our 2026 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2026 coverage year except as described above. This means these drugs will remain available at the same cost sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the formulary for the new benefit year for any changes to drugs.

The enclosed formulary is current as of 9/1/2025. To get updated information about the drugs covered by CHRISTUS Health Plan please contact us. Our contact information appears on the front and back cover pages.

### How do I use the Formulary?

There are two ways to find your drug within the formulary:

#### Medical Condition

The formulary begins on page 3. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, Antihypertensive Therapy. If you know what your drug is used for, look for the category name in the list that begins on 1. Then look under the category name for your drug.

#### Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 82. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

### What are generic drugs?

CHRISTUS Health Plan covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs work just as well as and usually cost less than brand name drugs. There are generic drug substitutes available for many brand name drugs. Generic drugs usually can be substituted for the brand name drug at the pharmacy without needing a new prescription, depending on state laws.

## What are original biological products and how are they related to biosimilars?

On the formulary, when we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have alternatives that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

## Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** CHRISTUS Health Plan requires you or your prescriber to get prior authorization for certain drugs. This means that you will need to get approval from CHRISTUS Health Plan before you fill your prescriptions. If you don't get approval, CHRISTUS Health Plan may not cover the drug.
- **Quantity Limits:** For certain drugs, CHRISTUS Health Plan limits the amount of the drug that CHRISTUS Health Plan will cover. For example, CHRISTUS Health Plan provides 10 tablets per 30 day prescription for a specific medication. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, CHRISTUS Health Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, CHRISTUS Health Plan may not cover Drug B unless you try Drug A first. If Drug A does not work for you, CHRISTUS Health Plan will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 3. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask CHRISTUS Health Plan to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, "How do I request an exception to the CHRISTUS Health Plan's formulary?" on page vi for information about how to request an exception.

## What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered.

If you learn that CHRISTUS Health Plan does not cover your drug, you have two options:

## 2026 CHRISTUS Health Plan Formulary

- You can ask Member Services for a list of similar drugs that are covered by CHRISTUS Health Plan. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by CHRISTUS Health Plan.
- You can ask CHRISTUS Health Plan to make an exception and cover your drug. See below for information about how to request an exception.

### How do I request an exception to the CHRISTUS Health Plan's Formulary?

You can ask CHRISTUS Health Plan to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to waive a coverage restriction including prior authorization, step therapy, or a quantity limit on your drug. For example, for certain drugs, CHRISTUS Health Plan limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.
- You can ask us to cover a formulary drug at a lower cost-sharing level. If a similar drug is available on a lower tier the cost can be requested to match the cost of that lower tier.

Generally, CHRISTUS Health Plan will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost-sharing drug, or applying the restriction would not be as effective for you and/or would cause you to have adverse effects.

You or your prescriber should contact us to ask for a tiering or, formulary exception, including an exception to a coverage restriction. **When you request an exception, your prescriber will need to explain the medical reasons why you need the exception.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can ask for an expedited (fast) decision if you believe, and we agree, that your health could be seriously harmed by waiting up to 72 hours for a decision. If we agree, or if your prescriber asks for a fast decision, we must give you a decision no later than 24 hours after we get your prescriber's supporting statement.

### For more information

For more detailed information about your CHRISTUS Health Plan prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about CHRISTUS Health Plan, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

## CHRISTUS Health Plan Formulary

The formulary that begins on the next page provides coverage information about the drugs covered by CHRISTUS Health Plan. If you have trouble finding your drug in the list, turn to the Index that begins on page 82.

## 2026 CHRISTUS Health Plan Formulary

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., AFINITOR) and generic drugs are listed in lower-case italics (e.g., *atorvastatin*).

The information in the Requirements/Limits column tells you if CHRISTUS Health Plan has any special requirements for coverage of your drug.

## List of Abbreviations

**ACA:** Affordable Care Act.

**LA:** Limited Availability. This prescription may be available only at certain pharmacies. For more information, please call Customer Service.

**OTC:** Over the Counter. An OTC drug is a non-prescription drug.

**PA:** Prior Authorization. The Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.

**QL:** Quantity Limit. For certain drugs, the Plan limits the amount of the drug that we will cover.

**ST:** Step Therapy. In some cases, the Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.
